WRANGELL INSTITUTE TODAY

....Superintendent J. Lloyd Watkins

This is Wrangell Institute. On the right in the picture is the Girls' Dorm. Next to it is the main academic building where classes are taught, and next to that is the Boys' Dorm. Some of the other buildings are where the teachers and staff live.

The school year has begun. The students are once again at work. Many parents are wondering what it will be like for their sons and daughters, especially if they have not been away from home much before. This will tell you something about the school. You will be informed throughout the year.

WHY BE HOMESICK?

When many students first came to Wrangell Institute, they thought it the worse place in the world. Many were very lonesome. Most students seem to be over the homesickness by now, though. It was only natural to be homesick for some. They had never been away from home before.

One way to keep down homesickness is to settle down and go to work. After work, there is play. Many activities take place at Wrangell. The only ones still pretending homesickness are those students who are not trying to get over it.

VOTE FOR THE STUDENT COUNCIL

All students are voting for the Student Council this week. The students that were nominated for president were: Eugene Asicksik, Byron George and Jenny Aukon.

This coming Friday students will vote for the president, which will be one of these three. The students that were nominated for vice president were: Frances Wilson, Janet Anderson and Charles Jacko.

Other students were nominated for secretary, treasurer and councilmen. For secretary and treasurer three students were nominated for each office. Only one will come out winner for each office. Seven students were nominated as councilmen, but only three will be elected.

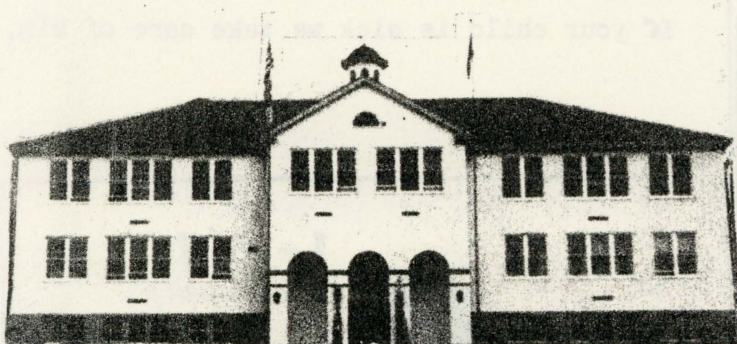

The election results should be interesting.

WRANGELL HIGH SCHOOL COUNCIL ELECTION

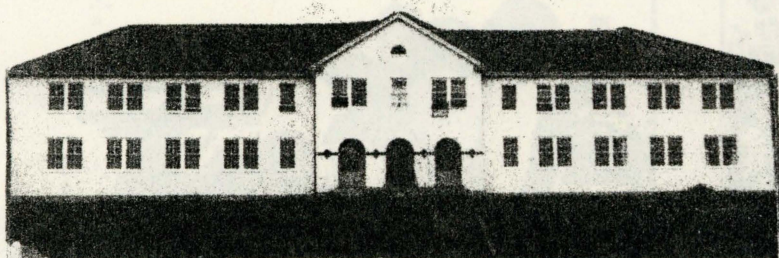

Mike Watkins	President
John Martin	Vice President
Sharon Chamberlin	Secretary
Roberta Lewis	Treasurer

Here is a closer view of the Academic Building.

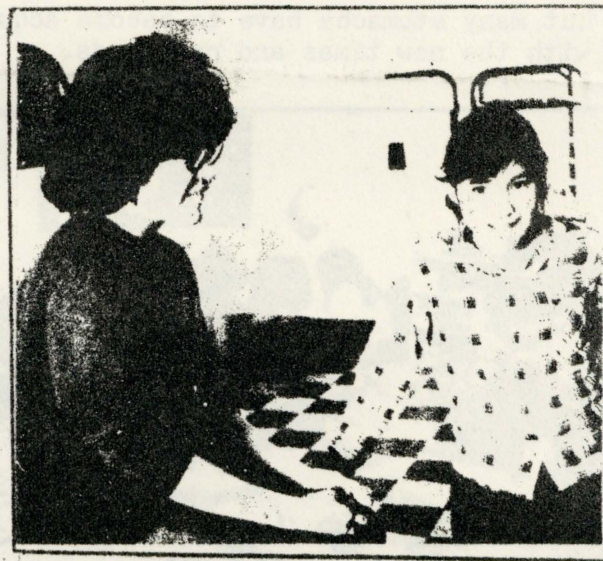

This is the Girls' Dorm

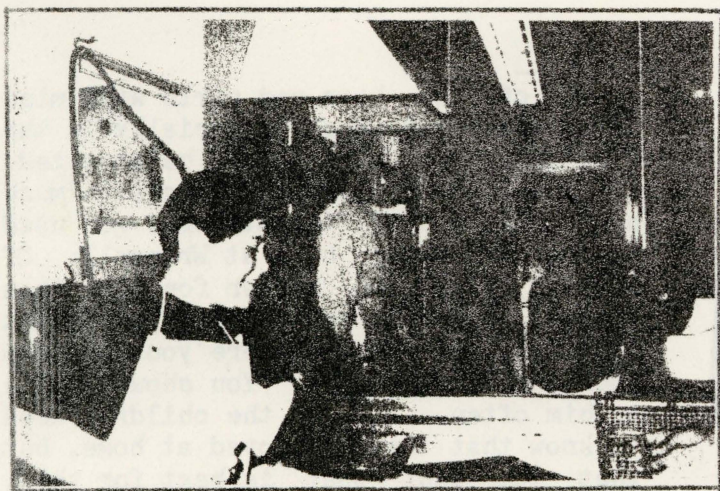

Here is the Boys' Dorm

All of the boys and girls will miss their homes very much, especially in the first few weeks. This is to be expected. It happens every year that there is much homesickness until the students get used to the new things here at Wrangell. Of course it is much harder for some than others. They may cry and ask you to let them go home. That is where you can help your child very much. You should write to him often. All of the children need to know that they are loved at home, but that you want what is best for them. Tell them to work hard and not to worry about home. Then after a few weeks have passed and they have made new friends, you will find that they are once again the happy boys and girls you sent away to school. Then they will be on their way to getting a good education.

FIRE PREVENTION WEEK - OCTOBER 9-15

There are many new things for the students to get used to at Wrangell Institute. There are the rules to be followed that keep them safe, healthy, and free from trouble. There are the regular times for eating, going to bed, and other activities that may be new. The food is probably different from what they are used to. Each boy and girl can eat as much as he wants at meal times, but many stomachs have to become acquainted with the new times and new foods.

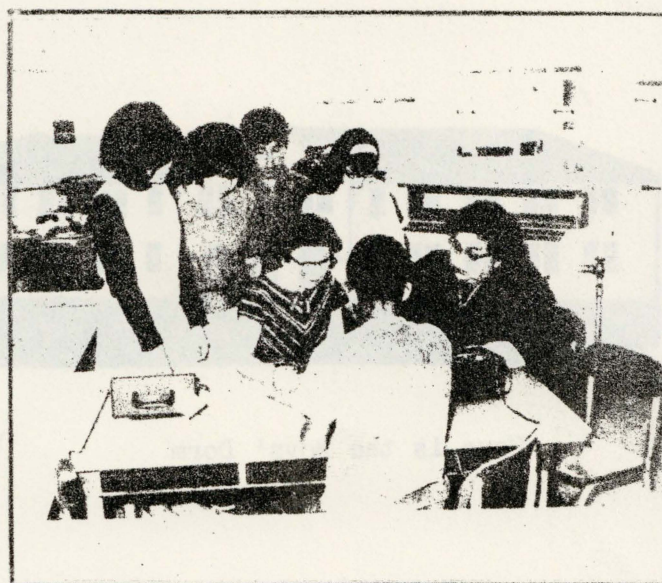

At Wrangell Institute we are ready to help each student go as far in school as he can. We do not place them in a room and call them 4th graders or 1st graders or eighth graders. We are only concerned about how we can help everyone take the biggest steps in his education possible. Students may grow one, two, or even three grades in a year's time. By next year they may be ready to attend another school. This is up to them, with your help and encouragement.

If your child is sick we take care of him.

TRACK TEAM GOOD

This fall you might have seen a large group of boys running up and down the road. What for? This question was asked by some of the students. Well, it came out Friday, September 23, 1966. The boys have been running cross-country, and Friday they beat Wrangell High 38 to 19. Mr. Fisher was very proud of the boys because the team is only junior high and the Wrangell High team had boys in grades 9-12.

Mr. Fisher feels that the team this year is better than the team last year, and last year's team was "pretty good."

The members of the team at the present are as follows: Charles Jacko, Burt Merculief, Paul Washington, Chester Wesley, Enoch Tooyak, Edwig Pete, George Johnson, Eugene Asicksik, Paul Paul, Morgan Annogizak, Henry Horner, Ted Williams, Denny Akeya, Wilfred Smoke, and Ken Selanoff.

Mr. Fisher will make one more cut at which time there will be ten boys on the team.

A-V CLUB ORGANIZED

The Audio-Visual Club had its first meeting of the year on September 23, 1966. As in previous years the club starts out with 45 members. Throughout the year the number remains the same, but different students are involved.

At the first meeting the following officers were elected: Eugene Asicksik, president; Frances Wilson, vice-president; Nina David, secretary; Arlene Albert, Treasurer; and William Hall, chief technician.

The club members include all of the students listed in the masthead of the WRANGELL EAGLE.

One of the chief functions of the A-V Club is the publication of the school paper. While the core of the paper work is centered in the club, other students are not excluded. All students make contributions through the classrooms, and any student with special skills needed by the staff, can report to the library any afternoon after 4:00

Classrooms

WRANGELL HAS A GOOD STAFF

Wrangell Institute is a swell school. The teachers and matrons do their best to help children get along with one another. They also help the children do their school work. The staff is a swell group. They try to do the best in keeping Wrangell Institute a pleasant home for the students who attend the school from September to May.

SOCK HOP DANCE ENJOYED BY ALL

Last Saturday there was a dance. It was called "Sock Hop." This dance was held in the gym. Everyone had to use socks. It was fun. The dance lasted two hours. Everyone enjoyed the dance and is hoping there will be another sock hop dance soon.

....Matilda Alstrom

FATHER CYRIL VISITS WI

Father Cyril was here at Wrangell Institute last week. He had religious instruction for the Russian Orthodox students. He gave them Holy Communion on the 27th of September.

He introduced the students to a lady from New York who was an editor of the Russian Orthodox Bible Story Magazine. This lady will be sending this magazine every month.

....Julianna Hapoff

STUDENTS ATTEND CONCERT

A concert was held in the Wrangell High School gym, September 30, 1966.

David Abel played the violin, Bonnie Hampton played the cello and Nathan Schwartz played the piano.

They played very well. They played about four or five long selections.

After they were through playing everyone went upstairs for refreshments.

The concert was over about 11:30 p.m.

....Claudette Frank

FORGET ABOUT HOMESICKNESS

Wrangell Institute is a good school and is a little big. It has very good students and teachers, too. It has a lot of trees which make Wrangell Institute look good. It is good to have the dorms close to the school, that way the students don't have to walk a long distance. There are a lot of students, all from different places.

Some children are making friends and getting along fine with others. That way they forget about being homesick.

....Maria Lekanoff

STUDENTS READY FOR FIRE DRILL

Students are ready for a fire drill. The whole school expects the fire alarm to go off at anytime. About a week ago a walk out fire drill was held in the form. That was about 7:00 p.m. Everyone was ready even the small kids were ready. They did not have to be carried out. Some students went down the stairs, some down the fire escape.

Nobody knows when there will be a fire drill. The reason for having these fire drills is to get ready for a real fire. If there is a real fire, don't panic, just stay calm and obey orders.

CAMPUS REPORTS

Louie Lee

Charles Inga

Each year many new students come to Wrangell Institute for the first time. Usually this is the first time they have been away from home. Learning to live in the dormitory and with a lot of students is difficult. Each year there are many students who adjust well.

So far, this year is an excellent year. It has the makings of the best year for Wrangell Institute. All students are working hard in school and doing their lessons well. Many teachers have commented on the fine manner in which the students are doing their work. Dormitory people have said that the students have a good attitude. Everyone is doing an outstanding job.

Keep it up and this will be the best year for Wrangell Institute. Don't you want to be part of this "best year"?
